

East Nepean Little League Members,

East Nepean Little League has received an updated statement regarding COVID-19 from Little League regarding the start of the 2020 season.

At this time, it is estimated that the season will start in mid- May. East Nepean, continues to monitor the situation closely and consults with the necessary experts and health authorities.

At this time, plans remain for a 2020 season, with a slightly later start date then normal. While a later start date is disappointing, this has occurred in previous seasons due to weather so it is a timeline that East Nepean has accommodated previously with no issues.

We will continue to keep our membership informed as information is received and decisions are made. East Nepean appreciates the support of all our members as we deal with this situation that is evolving and changing almost daily.

Bruce Campbell

President, East Nepean Little League
